Explore BeNe Cercetare's European projects

MisaIB

An Intelligent monitoring and prediction system for noise and air quality using AI and Blockchain

ROMEO

Smart Online Multisensory system for microplastic quantification and water quality assessment

PNTS

Support Romania's involvement in the European strategic field of Microelectronics

Platformă Națională
pentru Tehnologiile Semiconductoarelor
(PNTS)

OPTIX

Optimising Positive-Energy Districts through Interoperable Digital Platforms

PROMISE

Progressive Reduction of car dependency: co-create solutions by integrating Micro-mobility, Infrastructure, and Smart policy in first/last miLE travel and deliveries

ENHANCE Europe

Energy Harvesting Collectors for Urban Road Pavement

Wallachia eHUB (WeH 2.0)

Adigital transformation gateway in the Region of South-Muntenia

AEROMATICS

An Aeroionic Module Prototyping leveraging AI, Techno-economics & Sustainability

NANOEMCA

Confined Nanoreactors for Environmental, Medical and Catalytic Applications

NetZeroCities

National Competence Centre and solutions for the development of Climate Neutral and Smart Cities

SeaGuard

Sea Environmental Awareness and Guard enhanced with Unmanned AI Robotic Detection

Museion

An IoT platform for monitoring of the museum environment and tackle these challenges.

SMARDY

A research data marketplace for technology transfer built as a software and data carpentry

SHIELD

Smart Holistic Integrated Early-warning Laboratory and Digital system for arbovirus surveillance

NEVMA

Neuromorphic Event-Driven Vision for Multiple Defense Applications

Why Choose Our Company

BeNe Cercetare stands out for its expertise in research, development, and innovation (RDI) within communications and technology.

With over a decade of experience, the company delivers cutting-edge solutions in areas like smart mobility, energy efficiency, environmental protection, and digital transformation. By partnering with BeNe, you gain access to innovative technologies, proven project experience, and a commitment to sustainability and societal impact.
